

## North Dakota Bakken oil production by company May 2013

49,259

Derived from the preliminary May 2013 Oil & Gas Production Report published by the North Dakota Industrial Commission, Department of Minerals. Note this is the oil produced by wells operated by these companies; it does not identify the percentage of Bakken and Three Forks formation oil within the Bakken petroleum system that is owned by each company or its partners, so it may differ from what each company reports. The daily average for the individual companies was derived from dividing the total production by the number of days in May, versus the number of days wells were actually producing. There are a few wells that did not produce for the entire month.

198

The operator names used in this chart are exactly as they appear in State of North Dakota Oil & Gas Division records, but some of the companies and/or their Bakken assets might have been acquired by others. The ones we have identified include Burlington Resources Oil & Gas Company, LP, which is owned by ConocoPhillips; XTO Energy, Inc., owned by ExxonMobil; and Samson Resources Company, owned by KKR & Co. Please let us know if you see others by emailing Kay Cashman at publisher@petroleumnewsbakken.com.

Hawkeye - Bakken - McKenzie

Haystack Butte - Bakken - McKenzie

Average daily North Dakota Bakken produ May was approximately 686,402 barrels of day, which includes all zones of the Bakker leum system. This compares to total North oil production for May of 810,129 bpd (se week's story, "ND breaks 800,000 bpd," at umnewsbakken.com/pntruncate/568271255 the difference coming from other petrolet tems, such as largely vertical wells in the Ty sion Canyon, Duperow and Red River play North Dakota Industrial Commission shows bpd coming from the Bakken petroleum sy May, the inconsistency coming from wells the been given confidential status by the state. our best guess—ti—mate, production from the dential wells will likely not impact our Top to	oil per petro- Dakota ee last petrole- ishtml), um sys- yler, Mis- ys.
