Colville's culture of continuous improvement is exemplified in our fleet of specialized Dalton Highway trucks that continue to evolve with technological advancements.

Colville Inc., providing safe, reliable logistics in the Arctic for more than 60 years

Alaska-based family of companies is well suited to supply services across the state of Alaska

Q. What is the official name of your company?

A. Colville, Inc.

Q. Is your firm a subsidiary or affiliate of other companies? If so, please name those firms and their relationship to your company.

A. The Colville family of companies include Colville Fuel, Colville Transport, Colville Aviation, Solid Waste Services, Brooks Range Supply, Brooks Range Kenai, Brooks Camp, Brooks Commons Officeplex, and Ben's Towing.

Q. What do you most want people to know about your company?

A. With nearly 40 years of experience as a North Slope fuel supply company, Colville is well suited to satisfy the entirety of our clients' fuel needs. As a contractor to oil producers, Native villages and regional corporations, Colville drives millions of miles annually across the paved, gravel, and ice road networks of the state to supply millions of gallons of fuel to our customers. We routinely provide ULSD, gasoline, AHE, Jet-A, and Avgas for North Slope operations, including the oil industry, marine and air carriers. We have an extensive and proven network of suppliers, highway transport tankers, bulk terminal tanks, and in-field delivery trucks. This comprehensive and proven system handles over 30 million gallons annually, and has the capacity to accommodate large volumes.

Our strategy integrates our clients' requirements within this

Brooks Range Supply stocks over 300k items, including general hardware, light and heavy duty automotive, steel, electrical, tools and more.

network, offering an efficient, broad-based supply and transport system that can handle an expansive range of requirements in both volume and type. We offer purchasing power economies of scale, a highly trained, specialized, and experienced workforce, and an established infrastructure in place. All of this is coupled with a company culture that engages safety and quality every day.

Additionally, Colville operates one of the largest public utility districts in the United States. Our Solid Waste service encompasses the Western region and the Dalton Highway region, including Kuparuk, Alpine, NPR-A west to the Ikpikpuk River, and down the Dalton Highway to Atigun Pass.

Q. Where is your company located?

A. Our Home office is in Prudhoe Bay, Alaska. Our transport facility and Ben's Towing are located in Fairbanks, and our administrative offices are in Anchorage. We also have NAPA stores in Kenai, Seward, and Soldotna.

Q. What year was the company founded and by whom?

A. Colville was founded in 1981 by legendary bush pilot, Bud Helmericks.

Q. What is your company's primary business activity?

A. The supply and delivery of fuel in Alaska is Colville's core competency.

Q. Are there important projects the company is currently a part of or has done recently?

A. Colville is an Arctic logistics and supply company so we are an integral part of our customers' projects. In 2018 we began barge fuel operations to accommodate the increased demand on the North Slope while reducing the congestion on the Dalton Highway. After completing a successful and safe first season, we —designed and fabricated equipment that will enable us to haul more fuel this season, with reduced risk of injury.

Q. How many employees does your company have?

A. While we have some seasonal fluctuation, there are approximately 200 employees year-round.

Q. Describe the equipment your company uses and are there any new equipment purchases planned?

A. We have a large delivery fleet of A and B train tractor trailers, fuel spreader trucks, portable fuel tanks, and solid waste bins. New

equipment purchases include fabrication of our 6th generation, Colville-designed portable fuel tanks and additional solid waste bins. This year we added our 6th generation of Colville-designed portable tanks, as well as additional equipment at our solid waste facility.

Q. Is your company expanding any of its operations or locations?

A. Historically, we have added bolt-on services in anticipation of our customers' needs, as well as upon request. A few recent examples include Brooks Commons Officeplex, a newly remodeled office and conference facility located adjacent to both Brooks Camp and Brooks Range Supply; propane sales and deliveries; steel sales, and expanded our heavy duty automotive division.

Q. What is your company's main strength or its edge over the competition?

A. Decades of experience, a robust infrastructure, and our focus on safety, the environment, and demonstrated continuous improvement culminates in reliable service delivery for our customers.

Q. What is the average length of time employees work for the company?

A. Our employee tenure covers the entire spectrum. We have summer interns that have only been with us a few months, new employees to support recent growth, and employees that have been with us for 20 years.

Q. What is the address of your company's Web site?

A. www.colvilleinc.com

Colville expertly manages solid waste services so that our customers can focus on their core operations. We handle municipal solid waste, construction and demolition, metal, wood, oily

COURTESY COLVILLE

Doyon's strong performance is grounded in the rich Athabascan heritage and cultures represented in our region.

Doyon's values guide its success in every pillar of industry in which it works

Company outshines as a financially strong Alaska Native corporation to support the future of its shareholders

Q. What is the official name of your company?

A. Doyon, Limited

Q. Does your company have subsidiaries? If so, please name.

A. Doyon is one of the largest Alaskan-owned businesses and operates more than a dozen for-profit companies in and outside of Alaska. The Doyon family of companies are comprised of: Doyon Drilling, Doyon Tourism, Doyon/ARAMARK JV, Doyon Government Group, Arctic Information Technology, Inc., design-DATA, Doyon Associated, Mid-Alaska Pipeline, Doyon Anvil, Doyon Utilities, Doyon Remote Facilities & Services, Northern Laundry, Doyon facilities.

Q. What do you most want people to know about your

company?

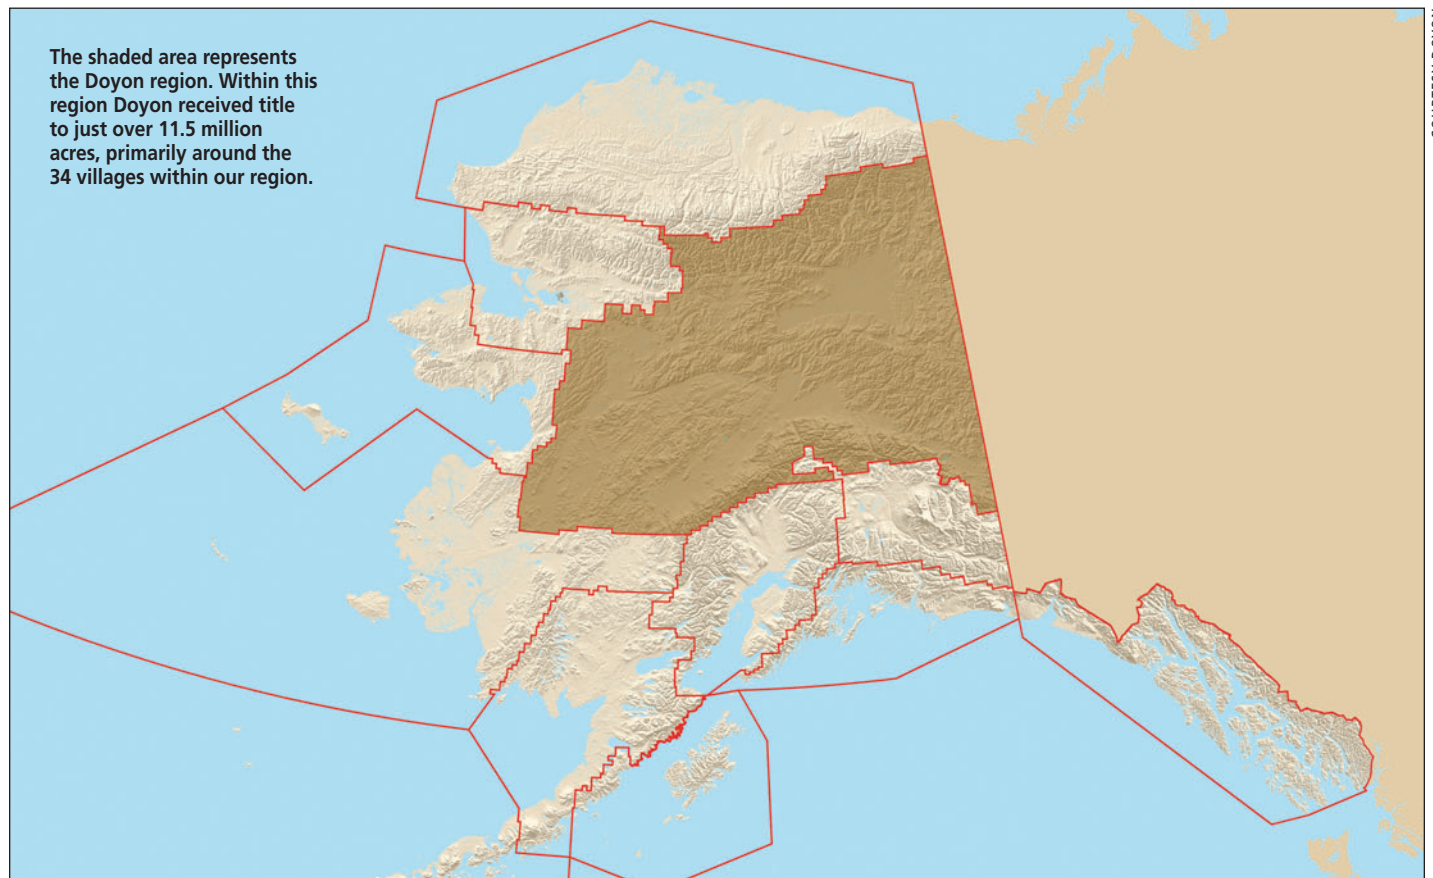

A. Doyon takes pride in and values its Native ownership and is owned by 20,000 shareholders. Doyon operates as a for-profit business to provide dividends and other benefits to its shareholders while working to ensure our Alaska Native way of life is sustained for future generations. Doyon is an integral part of the Alaskan economy, providing economic benefits far beyond our shareholders.

Q. Where is your company located?

A. Doyon's corporate headquarters are based in Fairbanks, Alaska with administrative and subsidiary offices located in Anchorage and throughout the United States.

Q. What year was the company founded and brief history?

A. Doyon was established on June 26, 1972 pursuant to the Alaska Native Claims Settlement Act (ANCSA) of 1971. Doyon is

one of 12 Regional land-based Alaska Native corporations. ANCSA was passed to resolve a longstanding land claims dispute between the Alaska Native people and the federal and state governments. Doyon is the largest private land holder in Alaska. The Doyon region encompasses 37 villages, 26 village corporations, the tallest mountain in North America, four military bases, and the longest rivers in the state.

Q. What is your company's primary business activity?

A. Doyon operates across three pillars: oil and gas, government contracting, tourism, and natural resources. In the oil and gas sector, our companies blend expertise and technological muscle in support of smooth, safe, and successful operations in the North Slope oil fields. In government contracting, we bring years of experience and an expert approach to our work with federal agencies. In tourism, we offer a variety of ways to experience the splendor of the Denali National Park. In Natural resources, we manage the natural resources of our land with the utmost concern for safety and the environment.

Q. Does your Company have any landmark events coming up?

A. June 26, 2022 will mark Doyon's 50 years of incorporation.

Q. Are there important projects the company is currently a part of or has done recently?

A. Doyon's land ownership includes a vast mineral property holding within the well-known Tintina Gold Belt which provides many mineral exploration and development opportunities supporting jobs, training, and rural communities. Through exploration agreements with major and junior mining companies over the past

four decades, Doyon has retained geological information from exploration on its lands. Many of the prospective lands are on or near the well-developed road system of Interior Alaska. Doyon looks forward to continued exploration to support the global and national demand for minerals, and local development of rural economies.

Q. How many employees does your company have?

A. The Doyon family of companies employs 1009 employees throughout Alaska and the Lower 48.

Q. Describe any new equipment?

A. Doyon Drilling, Inc. (DDI) Rig 26, an extended reach drilling rig, will begin drilling operations in April 2020. Rig 26, coined "The Beast," will be the largest land-based rig in North America, with the capability for directional drilling to a depth of at least 33,000 feet and capacity to develop resources within a 125 square mile area. Rig 26 is part of ConocoPhillips Alaska's long-term strategic plan to bring the capabilities of an extended reach drilling rig to the North Slope. DDI is the premier drilling contractor on the North Slope of Alaska and is a wholly-owned subsidiary of Doyon.

Q. Has your company been involved in any community projects or charity events?

A. At Doyon, we are committed to giving back to promote the economic and social wellbeing of our shareholders. Our donation programs are designed to give back in a meaningful way which enhances the Native way of life and provide benefits to our shareholders, our communities and our state.

Q. What is the address of your company's Web site?

A. www.doyon.com

ON THE JOB: Lynden

Photos courtesy Lynden

Above, from the Trans-Alaska Pipeline construction in the 1970s to today's global oil field operations and exploration, Lynden has a long history of supporting the oil and gas industry in Prudhoe Bay. The Lynden companies haul camp modules, drill rigs, pipe, and heavy haul and oversized loads safely, efficiently and cost-effectively.

At right, same-day field hauling of water, fuel and bulk liquids to various work sites on the North Slope is also a focus. Lynden Oilfield Services' tundra equipment is built for minimal ground impact on sensitive Arctic oil fields.

LYNDEN **OILFIELD SERVICES**

Above, utilizing the Lynden family of companies, Lynden Oilfield Services provides multi-modal air, sea and land services including heavy haul options for drilling contractors, chemical suppliers, camp support, construction and all phases of resource activity throughout the North Slope and offshore Alaska.

At left, Lynden Oilfield Services has intermodal capability and a 90,000-pound-capacity forklift with all attachments for lifting containers, intermodal tanks and support flats. Service capabilities include trans-loading and offloading of materials and cargo including ISO tanks and containers.

Below, Lynden Air Cargo Hercules aircraft can carry the heaviest, outsized loads, including to areas without runways or roads. With a payload of 48,000 pounds the Hercs routinely carry camp modules, drill rigs, vehicles, and other equipment to support oil field customers.

COMPANY NEWS *in brief*

Fluor awarded contract for Valvoline facility

Fluor Corp. announced Feb. 14 that it was awarded the engineering, procurement and construction management contract for Valvoline's new blending and packaging facility in Zhangjiagang, China. The project is Valvoline's first plant in China. Fluor booked the undisclosed contract value in the fourth quarter of 2018.

"With the growing automotive market in China, Fluor will assist Valvoline to meet the demand for its products by delivering this facility on schedule and with execution excellence," said Sandeep Nibber, president of Fluor's energy and chemicals business in Asia-Pacific. "Fluor is bringing several cost-competitive innovations, including minimizing onsite tank farm fabrication work, to perform this schedule-driven project."

The 80,000-square-meter plant will have the capacity to produce more than 30 million gallons of finished lubricants and coolants annually for passenger cars and heavy duty vehicles. More than 600 workers are expected onsite at peak during construction. Production at the plant is expected to begin by the end of 2020.

Nabors appoints Anthony Chase as a director

Nabors Industries Ltd. announced Feb. 25 that it has expanded its board to seven members and appointed Anthony R. "Tony" Chase to fill the vacancy. Chase is the chairman and chief executive officer of ChaseSource L.P., a Houston-based staffing and real estate development firm. He was a founder of mobile phone provider Cricket Wireless and ChaseCom, L.P., a global customer relationship management and staffing services company, until its sale to AT&T Inc. in 2007. Chase has served as a director of both Anadarko Petroleum Corp. and Paragon Offshore plc since 2014.

He is a tenured professor of law at the University of Houston Law Center, where he began teaching in 1990, and has published numerous law review articles during his tenure. Chase is on the board of directors of the Texas Medical Center, M.D. Anderson Board of Visitors and the Greater Houston Partnership, serving as its chairman during 2012. He is also a trustee of the Houston Endowment, and serves on the board of trustees for St. John's School and KIPP Schools. Chase graduated with honors from Harvard College and subsequently earned M.B.A. and J.D. degrees from Harvard Business School and Harvard Law School, respectively.

Anthony Petrello, Nabors' chairman, CEO and president, commented, "We are very pleased to have Tony join the Nabors Board of Directors. His appointment reflects our continued commitment to adding highly qualified, independent directors with strong backgrounds and relevant experience. Tony brings a wealth of experience and talent that can only benefit Nabors and our shareholders."

Fluor awarded Halliburton project in Saudi Arabia

Fluor Corp. announced Feb. 20 that it was awarded the engineering, procurement and construction of the Halliburton specialty chemicals manufacturing reaction plant located in the PlasChem Park, Jubail, Saudi Arabia. Fluor booked the undisclosed contract value in the fourth quarter of 2018.

"Having completed the front-end engineering design, we are pleased to undertake the design and construction of this major investment that accelerates Halliburton's strategic expansion of its fast-growing specialty chemicals business,"

said Simon Nottingham, president of Fluor's energy and chemicals business in Europe, Africa and the Middle East. "Fluor will use its full integrated solutions portfolio and its local execution capabilities to optimize the design and deliver a capital-efficient project with schedule certainty."

The new chemicals facility will produce a wide range of specialty chemical products and intermediates to supply both the upstream and downstream oil and gas production industries. Fluor's scope includes engineering, procurement, construction and commissioning.

Fluor's Al Khobar office in Saudi Arabia will lead the project with the team that performed the previous front-end engineering design contract and will be supported by Fluor's global chemicals experts.

COURTESY FLUOR

Fluor awarded contract for recommissioning project

Fluor Corp. announced Feb. 26 that it was awarded an engineering, procurement and construction management services contract by SABIC for the recommissioning of its polyphenylene ether resin plant in Bergen op Zoom, the Netherlands. Fluor will book the undisclosed contract value in the first quarter of 2019.

"We are pleased to support SABIC with this important recommissioning project at the Bergen op Zoom site where Fluor has more than 30 years of experience of providing innovative solutions to the client," said Simon Nottingham, president of Fluor's Energy & Chemicals business in Europe, Africa and the Middle East. "Fluor's proven track record in brownfield projects and construction-driven execution will minimize disruption at this complex operations site and provide cost and schedule certainty."

SABIC announced the project last year, in response to high global customer demand for its unique NORLYT™ resins, based on PPE resin technology. NORLYT resins are SABIC's proprietary family of modified compounds. Recommissioning the Bergen

op Zoom PPE resin facility will provide customers with a second source of NORYL resins globally and affirms SABIC's commitment to the European market and global customers who specify their NORYL resin material needs from Europe. When operational, the Bergen op Zoom facility is expected to add more than 40 percent global capacity over a 2017 baseline.

The 14-month project began in January 2019 led by Fluor's Bergen op Zoom office and will be supported by Fluor's Cebu office in the Philippines.

Keel laid for new Foss Maritime tier IV vessel

Foss Maritime said Feb. 27 that it is continuing its ongoing fleet expansion program with the keel laying of the first of its new class of ASD 90 tugboats. Construction of the first of four Tier IV ASD 90 Tractor Tugs being built for Foss Maritime began with a keel laying at Nichols Brothers Boat Builders of Freeland, Washington.

In a ceremony on Feb. 25 the vessel keel was laid and welded before NBBB, Foss and other representatives and guests. The keel laying also marks the implementation of a new production line at NBBB, which will improve efficiencies to meet the accelerated four-boat order.

The ceremony began with NBBB welding a silver dollar into the keel, an old nautical tradition. This was followed by comments by representatives of both NBBB and Foss.

"The new tugs are designed to upgrade our fleet and improve the company's ability to provide timely harbor and port services to a variety of customers," said John Parrott, president and CEO of Foss Maritime. "By offering lower maintenance down time, greater operating efficiencies and lower emissions, these new tugs help expand our nearshore and offshore capabilities."

Foss has an order for four of the new class of ASD 90 tugs, with an option for an additional six. Designed by Jensen Maritime Consultants of Seattle, and based on Jensen's Valor tugboat design, the vessels will meet Tier IV standards, using high-efficiency catalytic after-treatment technology to reduce emissions.

Foss plans to operate the tugs on the U.S. West Coast, performing ship-handling duties within ports and harbors. Delivery of the first four vessels will begin in winter 2020.

Four board members elected at Doyon annual meeting

Doyon Ltd. said March 15 that at its annual meeting of shareholders four individuals were elected to Doyon's 13-member board of directors. Elected with three-year terms ending in 2022 were Betty Huntington, Jerry Isaac, Sonta Hamilton-Roach and Miranda Wright.

The newly elected and re-elected board members will join existing board members Walter "Wally" Carlo, Shirley Cleaver, Jennifer Fate, Erica L. Frankson, Georgianna Lincoln, Esther McCarty, Christopher Simon, Pollock "PJ" Simon, Jr., and Orie G. Williams.

The main items of business were the election of the four board members, reports on the company's FY2018 financial performance, corporate initiatives, goals and shareholder of the year awards.

Emil Notti delivered the keynote address to the shareholders. Notti spoke of the history of the Alaska Native Claims Settlement Act, the strength and stamina of Alaska Native people, the work that still needs to be completed, and the future of Doyon and its shareholders. Notti was the first president of the Alaska Federation of Natives and was a force behind the land claims movement and negotiations that culminated in the ANCSA.

Shareholder of the year award recipients are Doyon Citizen of the Year, Roy Nictune of Alatna and Bettles, Richard Frank Military Service awardee, Tanna Carter of Minto, and Chief Andrew Isaac Leadership awardee, Sheree Titus of Northway.

Fluor joint venture completes work on Sasol project

Fluor Corp. announced March 19 that its joint venture with TechnipFMC has successfully completed its engineering, procurement and construction management services scope of work on Sasol's world-scale petrochemical complex in Westlake, Louisiana. The joint venture will continue to provide assistance to the Sasol team with remaining activities by working with Sasol in parallel on transition plans for each unit and system. The joint venture team will also assist in performance testing for the complex.

A 1.5 million-ton-per-year ethane cracker is at the heart of the complex, which also includes six downstream chemical units and associated utilities, infrastructure and off-sites. All units have been transitioned to Sasol except for the low-density polyethylene unit, which will be handed over by the end of March 2019.

"This milestone is the culmination of nearly seven years of hard work by Fluor's project team and we are proud to have successfully delivered our scope," said Mark Fields, president of Fluor's energy and chemicals business in the Americas. "We brought our extensive U.S. Gulf Coast construction and megaproject expertise using our integrated solutions approach, and we are proud of the lasting positive impact this project will have on Southwest Louisiana."

More than 6,000 staff and craft were on site at peak to build the complex. The Fluor joint venture integrated a team of 30 main construction contractors and worked in collaboration with Sasol to strengthen the local economy, with more than \$4 billion committed to Louisiana businesses, and contributing more than \$185,000 to local schools and charitable organizations throughout the project.

COURTESY FLUOR

Right Choice Camps & Catering acquires Arctic Catering

Anchorage based Arctic Catering Inc. announced March 21 that it has signed a Letter of Intent to be acquired by Right Choice Camps & Catering Ltd. of Edmonton, Canada.

Right Choice Camps & Catering is a privately owned turnkey provider of camp equipment and catering services and is the market leader in Western Canada. Right Choice brings more than 100 years of combined experience within the camp and catering segment and has an enormous amount of internal capability in camp construction, equipment leasing and catering services.

"We are thrilled to bring the Arctic Catering team into the Right Choice family", said Gary Fortier of Right Choice. We look forward to offering our turnkey camp and catering services to the Alaskan remote site camp market."

The transaction includes a 30-day due diligence period and a subsequent closing. The transaction will not impact Arctic Catering's Alaska based employees.

"Right Choice is a natural fit for the Arctic Catering team. We are pleased that the Right Choice team recognizes the value of our personnel and is committed to a seamless merger for all Arctic's Alaskan employees" said David Gonzales, CEO, Arctic Catering, Inc.

With some of the most recognized client names in the industry, the combination of Right Choice Camps & Catering together with Arctic Catering will create a well-capitalized and forward-looking company offering a new and unique business model to the Alaska remote camp and contract catering sector.

Lynden companies bring Ted Stevens statue to Alaska

Lynden said March 29 that a life-size bronze statue of the late Alaska Senator Ted Stevens was unveiled Feb. 23 at the Anchorage airport that bears his name. With Lynden's long relationship with the senator, it was only fitting that Lynden companies donate the transportation of the statue to Anchorage where it is now gracing the airport. Lynden assisted with customs for shipment of materials from China and shipped materials from Los Angeles to Alaska for the background of the statue.

Alaska Marine Lines picked up the clay form from the artist Joan Bugbee Jackson in Cordova, Alaska, for transport to Seattle. From Seattle, Alaska Marine Lines delivered the form to a foundry in Oregon for bronzing. Lynden Transport handled the final leg back to Anchorage and stored the statue until the installation and final unveiling ceremony at the Ted Stevens Anchorage Airport.

Karina Waller of the Ted Stevens Foundation thanked Jim Jansen and Lynden for their support at the unveiling. "This is such a wonderful tribute to the Senator who truly loved

COURTESY LYNDEN

Alaskans and shaped our state," said Jeanine St. John, vice president, Lynden Logistics.

Fluor's Prevost named nation's top Craft Instructor

Fluor Corp. announced April 1 that Clemon Prevost was named the 2019 Craft Instructor of the Year by Associated Builders and Contractors. Prevost is the electrical trade instructor at Fluor's U.S. Gulf Coast Craft Training Center in Pasadena, Texas. He was recognized during the Careers in Construction ceremony at the ABC Convention in Long Beach, California last week.

"Clemon has a passion for developing tomorrow's workforce, and the heart he has for his students is evident in everything he does," said Mark Landry, executive vice president and chief human resources officer for Fluor. "From instructing students through technical simulations and competitions to mentoring them on employability skills, Clemon prepares them for success."

A journeyman in the electrical and instrumentation fields and an NCCER-certified instructor, Prevost has more than 42 years of experience in the electrical industry. Since 2015, he has led the electrical program at Fluor's U.S. Gulf Coast Craft Training Center. With Fluor, he has safely delivered more than 300,000 hours of craft training with 169 graduates in the electrical program. He is active in his community, mentoring others to help them prepare for careers in the construction industry.

The Craft Instructor of the Year award is presented annually by ABC to an instructor who possesses outstanding creativity, a positive attitude and the ability to transfer knowledge through communications skills and innovative teaching to promote life-long learning.

Saltchuk names David Karp Alaska SVP, managing director

Saltchuk said April 15 that it has named David Karp, SVP, managing director for Alaska.

Karp has been in his new role since Jan. 1 and is focused on working with Saltchuk companies to promote their capabilities to communities and industries throughout the state. In addition to business development, Karp will help facilitate community engagement, charitable giving and public policy issues across the family of companies.

Karp previously served, for the past 11 years, as the president and CEO of Northern Aviation Services, Saltchuk's air cargo line of business, which in Alaska includes Northern Air Cargo and Northern Air Maintenance Services.

DAVID KARP

Over the years Saltchuk's family of independently operated companies in Alaska has grown to include Northern Air Cargo, Northern Air Maintenance Services, Cook Inlet Tug & Barge, TOTE Maritime Alaska, Delta Western Petroleum, Inlet Energy, Northern Oilfield Services and Carlile.

Foss Maritime announces new general counsel

Foss Maritime Co. announced April 8 that seasoned corporate executive Sloane Perras has joined the company as vice president, general counsel and chief ethics officer. Perras will lead the company's legal and risk management group where she will provide legal counsel, advise on business strategies and best practices, and direct ethics and compliance programs.

Prior to joining Foss, Perras served as chief administrative and legal officer for The Krystal Co., a privately held retail brand. Perras regularly reviewed the company's enterprise risk strategies, financial controls and flows of revenue. She managed the risk management functions and provided enterprise strategy for innovation, regulatory compliance and HR risk mitigation. In addition, Perras worked closely with the leadership team on corporate governance, including reporting directly to the audit committee on cyber and privacy issues.

"We are very pleased to have Sloane join Foss Maritime," said John Parrott, president and CEO of Foss Maritime. "She has impressive experience and is an excellent fit on our team."

"I'm proud to join a company with such a rich history of safety and innovation in waterway commerce," said Perras, "I've worked in a variety of complex business and regulatory environments and look forward to putting my years of experience into safeguarding the values and reputation of Foss - and in being a part of its continued growth."

Perras has a degree in finance from University of Florida and earned her law degree, cum laude, from University of Georgia School of Law.

SLOANE PERRAS

Lynden Air Cargo expands service in Western Alaska

Lynden Air Cargo said April 23 that it is expanding its scheduled service points in Alaska to include St. Mary's and Emmak. Beginning April 30, Lynden will offer year-round scheduled air freight service on Tuesdays and Fridays to better serve customers and to support local industries in the Western Alaska region.

"We have traditionally served these areas with charter service to support seasonal fishing operations, but we are now proud to offer regular and reliable airfreight service all year," said Lynden Air Cargo President Rick Zerkel. "Lynden Air Cargo has been delivering freight in Alaska for many years, and we know the challenges and terrain. We handle oversized loads and small packages alike with our scheduled service and flag stops to points in the Alaskan Bush. We can arrange the right flight to get cargo delivered to practically any village or city in

the state." Lynden Air Cargo's scheduled service to St. Mary's and Emmak will begin and end in Anchorage. In addition to fish and general cargo, Lynden will carry bypass mail in and out of the two areas in its commercial C-130 aircraft.

Lynden Air Cargo also offers scheduled year-round service from Anchorage to Bethel, Nome and Kotzebue and flag stop service to other remote points in Alaska. Flights to Bethel are scheduled Tuesday through Saturday and to Nome and Kotzebue on Tuesdays, Thursdays and Saturdays. For more information on these services visit www.lynden.com/lac, or call 907-243-7248.

Northern Solutions receives ConocoPhillips award

Northern Solutions LLC recently said that it is a recipient of the 2018 ConocoPhillips Supplier Recognition Award program in the category of doing business better. Only four such awards are given globally each year.

Northern Solutions was presented the award at its Anchorage location on April 16 by Joe Marushack, president of ConocoPhillips Alaska.

Northern Solutions provided engineered, tested and manufactured tools to ConocoPhillips specifications, reducing time and risk in coiled tubing drilling rig operations and providing

a safer exit technique. Northern thus contributed to reducing overall cost of supply for Alaska North Slope crude.

"As a born and bred Alaskan company it's a privilege to earn this distinction," said Candice English, owner and CEO of Northern Solutions. "Accomplishing projects on time and within budget is why we're still in business after 13 years."

Ten companies are honored annually for exhibiting exceptional leadership in observance of ConocoPhillips's SPIRIT values. Awards are given in two areas: focus on execution and doing business better.

ConocoPhillips business units around the world generated nominations internally, with winners chosen by a cross-functional committee of senior managers.

For more information and a full list of recipients visit <http://www.conocophillips.com/news-media/story/conocophillips-announces-winners-of-2018-supplier-recognition-award-program/>

COMPANY NEWS *in brief*

Alaska West Express named safest truck fleet for 2018

Alaska West Express said April 30 that it received the 2018 Alaska Safe Truck Fleet of the Year Award from the Alaska Trucking Association at the association's annual meeting in April. Alaska West Express also received the award in 2016, 2014 and 2013. The carrier was recognized for its safety performance in 2018, including accident frequency rates, compliance, safety and accountability scores, and OSHA recordable injuries.

The ATA sponsors this prestigious safety award with ConocoPhillips to recognize and reward carriers who operate safely on the highway and in the workplace. CSA is a major safety measurement and reporting initiative of the Federal Motor Carrier Safety Administration.

"This award demonstrates the dedication and hard work of our entire team of transportation professionals," said Alaska West Express President Eric Badger. "Our drivers, maintenance personnel, operators, dispatchers, supervisors, managers and administrators all share in this success. Their efforts to continually identify safety improvements in our extremely challenging conditions is the cornerstone of our program. The safety of our people, the environment and our equipment is our most important objective each day."

"Alaska West Express clearly demonstrates to themselves, their management and the general public that the trucking industry can and does operate safely. Safety is our number one priority. ATA is proud that Alaska West Express is a member" said Aves Thompson, executive director of the Alaska Trucking Association.

Doyon announces Tanya Kaquatosh as Sr. VP of administration

Tanya Kaquatosh has been named the new senior vice president of administration for Doyon Ltd., the regional Native corporation for Interior Alaska.

Kaquatosh is a seasoned professional who has worked for the Doyon family of companies for the last 10 years. Kaquatosh comes to Doyon from Doyon Utilities, where she served as the director of regulatory affairs. She has her Bachelor's degree in Economics from Stanford University, and her Master's in Business Administration from Arizona State University. She is also a graduate of the 2014 Doyon Leadership Training program.

Kaquatosh grew up in Interior Alaska and is the daughter of Barbara Beatus and the late Norman Beatus of Hughes. Her maternal grandparents are Johnson Moses and the late Bertha Moses of Allakaket, and her paternal grandparents are Henry and the late Sophie Beatus of Hughes. Her siblings are Jody Moses, Joyce Oldman, Jessica Wilson and Cherise Beatus. Kaquatosh resides in Fairbanks with her husband, Steve, and

TANYA KAQUATOSH

their daughter, Skye.

Her favorite quote comes from her grandmother, "La'ga'danthlaa" in Denaakk'e it means "Keep moving forward."

"We are looking forward to have Tanya bring her experience from Doyon Utilities back to Doyon, Limited," said Doyon President and CEO Aaron Schutt, "and we are glad she will continue within the Doyon Family of Companies. Tanya's enthusiasm and expertise will be a great addition to our team."

NNSI announces appointments to its advisory panel

The North Slope Science Initiative announced May 20 the appointments of members to its Science Technical Advisory Panel. The 15-member panel of scientists and technical experts plays a critical role for the NSSI and its Oversight Group by providing advice and other forms of assistance concerning scientific research and monitoring activities related to energy development on Alaska's North Slope.

Panel membership is diverse and may include representatives of the oil and gas industry, subsistence users, holders of traditional ecological knowledge, conservation organizations, academia and other research institutions, and other entities. Panel members may possess technical expertise in one or more of the following areas: North Slope traditional and local knowledge, landscape ecology, petroleum engineering, civil engineering, geology, botany, hydrology, limnology, habitat biology, wildlife biology, biometrics, restoration ecology, sociology, cultural anthropology, economics, ornithology, oceanography, fisheries biology, climatology or other relevant areas of expertise.

The newly appointed or newly re-appointed members of the panel are: Dr. Robyn Angliss is appointed to represent marine mammals; Robert Meyer is appointed to represent fisheries; Julie Lina is appointed to represent Arctic environmental studies; Rada Khadjinova is appointed to represent oceanography; Dr. Liza Jenkins is appointed to represent landscape ecology and remote sensing; Dr. Mark Ivey is appointed to represent climatology and atmospheric science; Dr. Miguel Goni is appointed to represent marine ecology and oceanography; Ryan Cooper is appointed to represent habitat biology; Dr. David Cairns is appointed to represent landscape ecology.

The Secretary of the Interior appoints NSSI's Science Technical Advisory Panel members for three-year terms. For additional information visit <https://www.northslopescience.org>.

RADA KHADJINOVA

Foss welcomes new chief financial officer

Foss Maritime Co. announced June 4 that former vice president of finance at Esterline Technologies, Mike Welch, has joined the company as chief financial officer. Welch will lead the company's financial functions and performance while supporting the organization's long-range strategic goals.

Prior to joining Foss, in his role as VP of finance at Esterline Control & Communication Systems, Welch oversaw the financial performance of five business units, managing roughly \$350 million in sales. He led a team of nearly 40 people including five direct reports. In his fifteen years with Esterline Welch took on numerous roles. As the VP of finance, he helped develop and implement new strategies and programs, resulting in improved profitability.

"I'm really looking forward to having Mike on our team," said John Parrott, president and CEO of Foss Maritime. "We were impressed with his work at Esterline and are excited to have him on board."

Along with a commitment to safeguarding company financials while building and supporting strong teams, he is also focused on operating with the customer in mind.

Arctic Slope Regional Corp. ad campaign wins Emmy Award

Arctic Slope Regional Corp. said June 9 that it is honored to have won an Emmy Award from the Northwest Chapter of the National Academy of Television Arts & Sciences for its 2018 television commercial campaign, featuring the communities of Anaktuvuk Pass, Kaktovik and Nuiqsut. The 56th-annual award ceremony was held June 8 in Seattle, Washington.

"These beautiful commercials highlight the fact that while ASRC continues to diversify and expand its operations, our home is in Alaska and we continue to be guided by our Inupiaq values and the lessons from our elders," said Rex A. Rock Sr., ASRC president and CEO. "I'd like to thank Fenton Rexford, Catherine Edwards and Archie Ahkiviana for their involvement and to our external affairs team for putting the commercials together. I'm really pleased to see they've been so well-received."

This is the third Emmy for the corporation. Last year, the corporation won an Emmy for its long-format documentary "True North, the Story of ASRC", which aired statewide in 2017. ASRC also won an Emmy for its commercial campaign in 2015.

Lynden Chairman Jim Jansen receives award

The Alaska Aviation Museum presented Lynden Chairman Jim Jansen with a Lifetime Achievement Award recently and inducted him into its Hall of Fame. The annual Hall of Fame event celebrates pilots and entrepreneurs who have shaped Alaska's aviation history.

Jansen earned his pilot's license in 1965. In 1967, he was driving a truck at the remote Kennecott mine and also flying people and supplies from Anchorage to the mine in a Piper Comanche. Over the past 50 years, he has flown various aircraft including the Stinson 108-3, Cessna 185, Beech Baron, Turbo Commander and King Air in Alaska. He is also type rated in the Lockheed Hercules. A 16,500-hour ATP rated pilot, Jansen has flown his Cessna 185 for 41 years and the Lynden King Air for the past 22 years. The creation of Lynden Air Cargo in 1995 combined Jansen's love of aviation with his vision of a multi-mode transportation company in Alaska.

"The Alaska Aviation Museum greatly appreciates the tremendous contributions Jim Jansen has made to Alaska's avia-

tion, transportation and infrastructure development and welcomes him into the Hall of Fame," said board member and past President Bill Odom.

Stork awarded agreement by Ecopetrol in Colombia

Fluor Corp. announced June 25 that Stork, part of Fluor's diversified services segment, together with its consortium partners, was awarded a four-year framework agreement for plant turnaround services by Ecopetrol S.A. for its Barrancabermeja and Cartagena refineries in Colombia. The Colombia-based consortium includes Stork as the international lead partner, Rampint as the local partner in Barrancabermeja and Servimant as the local partner in Cartagena. The agreement also includes two extension options for an additional two years each. Both refineries supply fuel to meet Colombia's national and export product needs. Fluor booked the undisclosed contract value in the second quarter of 2019.

"Stork is extremely pleased that Ecopetrol has awarded this new turnaround contract that includes these two important refineries," said Taco de Haan, Stork's president. "The ongoing partnership with Ecopetrol has grown over the years due to mutual trust and collaboration and is built upon both companies' commitment to safety, integrity, excellence and teamwork. Stork will apply its full portfolio of professional solutions as part of this contract including a range of innovative products and techniques."

Stork's local offices in Barrancabermeja and Cartagena will lead the work, which is due to begin in September. The scope of work includes providing turnaround maintenance services on the plant process units during scheduled plant shutdown periods. In addition, the contract also includes emergency works and other preventive and corrective maintenance services to support Ecopetrol with further refinery performance optimization.

Stork has been providing maintenance and turnaround services to the Barrancabermeja refinery since 2013.

ASRC announces Industrial Services acquisition

Arctic Slope Regional Corp. said July 1 that it is pleased to announce the acquisition of Environmental Quality Management by its wholly owned subsidiary ASRC Industrial Services LLC.

EQM will join AIS's environmental engineering and professional services operating group. The company fills a gap in AIS's existing portfolio and adds another skilled group of employees to the expanding enterprise.

"On behalf of ASRC's board of directors, I am pleased to welcome the management team and talented employees of Environmental Quality Management to the ASRC family of companies," said Rex A. Rock Sr., president and CEO of ASRC. "EQM is the most recent acquisition we have made in pursuit of the AIS strategy initiated in September 2016. I am happy with the progression of the strategy to date, and I am confident the AIS and EQM management teams will work collaboratively to sustain the positive momentum and ultimately create a scaled platform

that delivers durable, enduring benefits to ASRC's shareholders."

Headquartered in Cincinnati, Ohio, EQM is a full-service environmental remediation company - specializing in environmental remediation, emergency response, site restoration, environmental consulting and emission measurement services. The company serves both the public and private sectors, including the Environmental Protection Agency, U.S. Army Corps of Engineers, the steel industry and large-scale manufacturers. For more information visit www.eqm.com.

Conservation project buys tract of coalfields forest

The Nature Conservancy announced July 15 that the Cumberland Forest Project, managed by The Nature Conservancy, has acquired a quarter-million acres of working forest land in the Central Appalachian coalfields of Virginia, Kentucky and Tennessee. The project represents one of the largest land conservation and ecological restoration efforts pursued by The Nature Conservancy in the eastern United States in the organization's 68-year history. With a total land area bigger than the Shenandoah National Park, the Cumberland Forest Project includes 100,000 acres spanning Kentucky and Tennessee, and another 153,000 acres in Virginia.

The Nature Conservancy plans to manage the property as a working forest, using sustainable practices to improve and maintain the health of the forests. The project is designed to protect and restore wildlife habitat, secure clean water for people and nature and sequester atmospheric carbon to mitigate climate change. At the same time, it aims to support outdoor recreation and foster important investments in local economies.

"The Cumberland Forest Project is a historic opportunity to blend conservation and economic development in a region where we have lived and worked for 30 years at a scale we have never seen before," said Locke Ogens, state director for The Nature Conservancy in Virginia. "The Nature Conservancy is in a unique position here to change the way people think about nature's value and put private capital to work to solve some of our most pressing challenges."

For more information visit www.nature.org.

Airframes Alaska voted #1 fastest growing company in Alaska

Airframes Alaska said Aug. 13 that Heather Montgomery, a life-long Alaskan and CEO of Alaska Tent & Tarp, Airframes Alaska, Alaska Bushwheels and Reeve Air-motive, has successfully grown the umbrella of business for more than seven years and is expanding its manufacturing capabilities in Alaska to supply customers around the world. Montgomery held the previous positions of COO and CFO. With her exceptional entrepreneurial skills, she currently leads a team of 80 employees. In 2015, Airframes Alaska was voted as one of the fastest growing companies in INC 5000 and was ranked No. 1 in Alaska.

The company's new focus is on integrating its latest acquisi-

HEATHER MONTGOMERY

tion of Alaska Tent and Tarp, which took place on Jan. 1. The Anchorage location has moved to Merrill Field at 2424 5th Ave. The newly remodeled showroom encompasses Alaska Tent & Tarp and aviation all under one roof, a complementary fit, as Alaska aviators love to explore "Life beyond Runways" and accessing their "True Wilderness" with the latest gear options and innovative advancements with technology.

For over 60 years, Alaska Tent & Tarp has provided the oil and gas industry with commercial fabric, pit liners, custom covers and installation for customers across Alaska and around the world. With retail and manufacturing stores located in Fairbanks and Anchorage, the company has a solid presence in the Alaska market. Alaska Tent & Tarp's products are custom designed, handmade for arctic conditions, and are suitable for commercial, recreational and personal use.

The company continues to follow the message communicated by its mission: to design, fabricate and sell commercial, industrial, military, and recreational fabric products for all environments. For more information www.alaskatent.com or www.airframesalaska.com.

Lynden maintains No. 1 ranking in quest for quality awards

Lynden Transport said Aug. 13 that it has maintained its top spot among carriers by earning a seventh consecutive No. 1 ranking and its 23rd overall award in the 36th annual Logistics Management Quest for Quality Awards. The company received the highest scores among less-than-truckload western regional carriers in the on-time performance and information technology categories and earned the highest overall weighted score.

"Although this is our seventh award in seven years, it is still exciting and gratifying to be recognized by our customers for the work we do each day," says Lynden Transport President Paul Grimaldi. "Our industry is rapidly changing with the demands of e-commerce and the pressure of quicker delivery expectations. This award lets us know that we are not only keeping pace with industry changes, we are doing it while providing exceptional customer service. As always, credit goes to our hard-working drivers, customer service representatives, support staff and the entire Lynden Transport team."

For more than 30 years, Logistics Management's Quest for Quality Award has been regarded as the highest measure of customer satisfaction and performance excellence in the transportation and logistics industry. This year, 4,975 ballots were cast by readers for the "best of the best" in service excellence across a number of criteria including: on-time performance, equipment and operations, value, information technology and customer service. To be a winner, a company had to receive at least 5% of the category vote.
